**2022 : 17000 m<sup>2</sup>**

**2023 : 18000 m<sup>2</sup>**

We are continually working to enhance our production capacity in alignment with our sustainable growth goals.

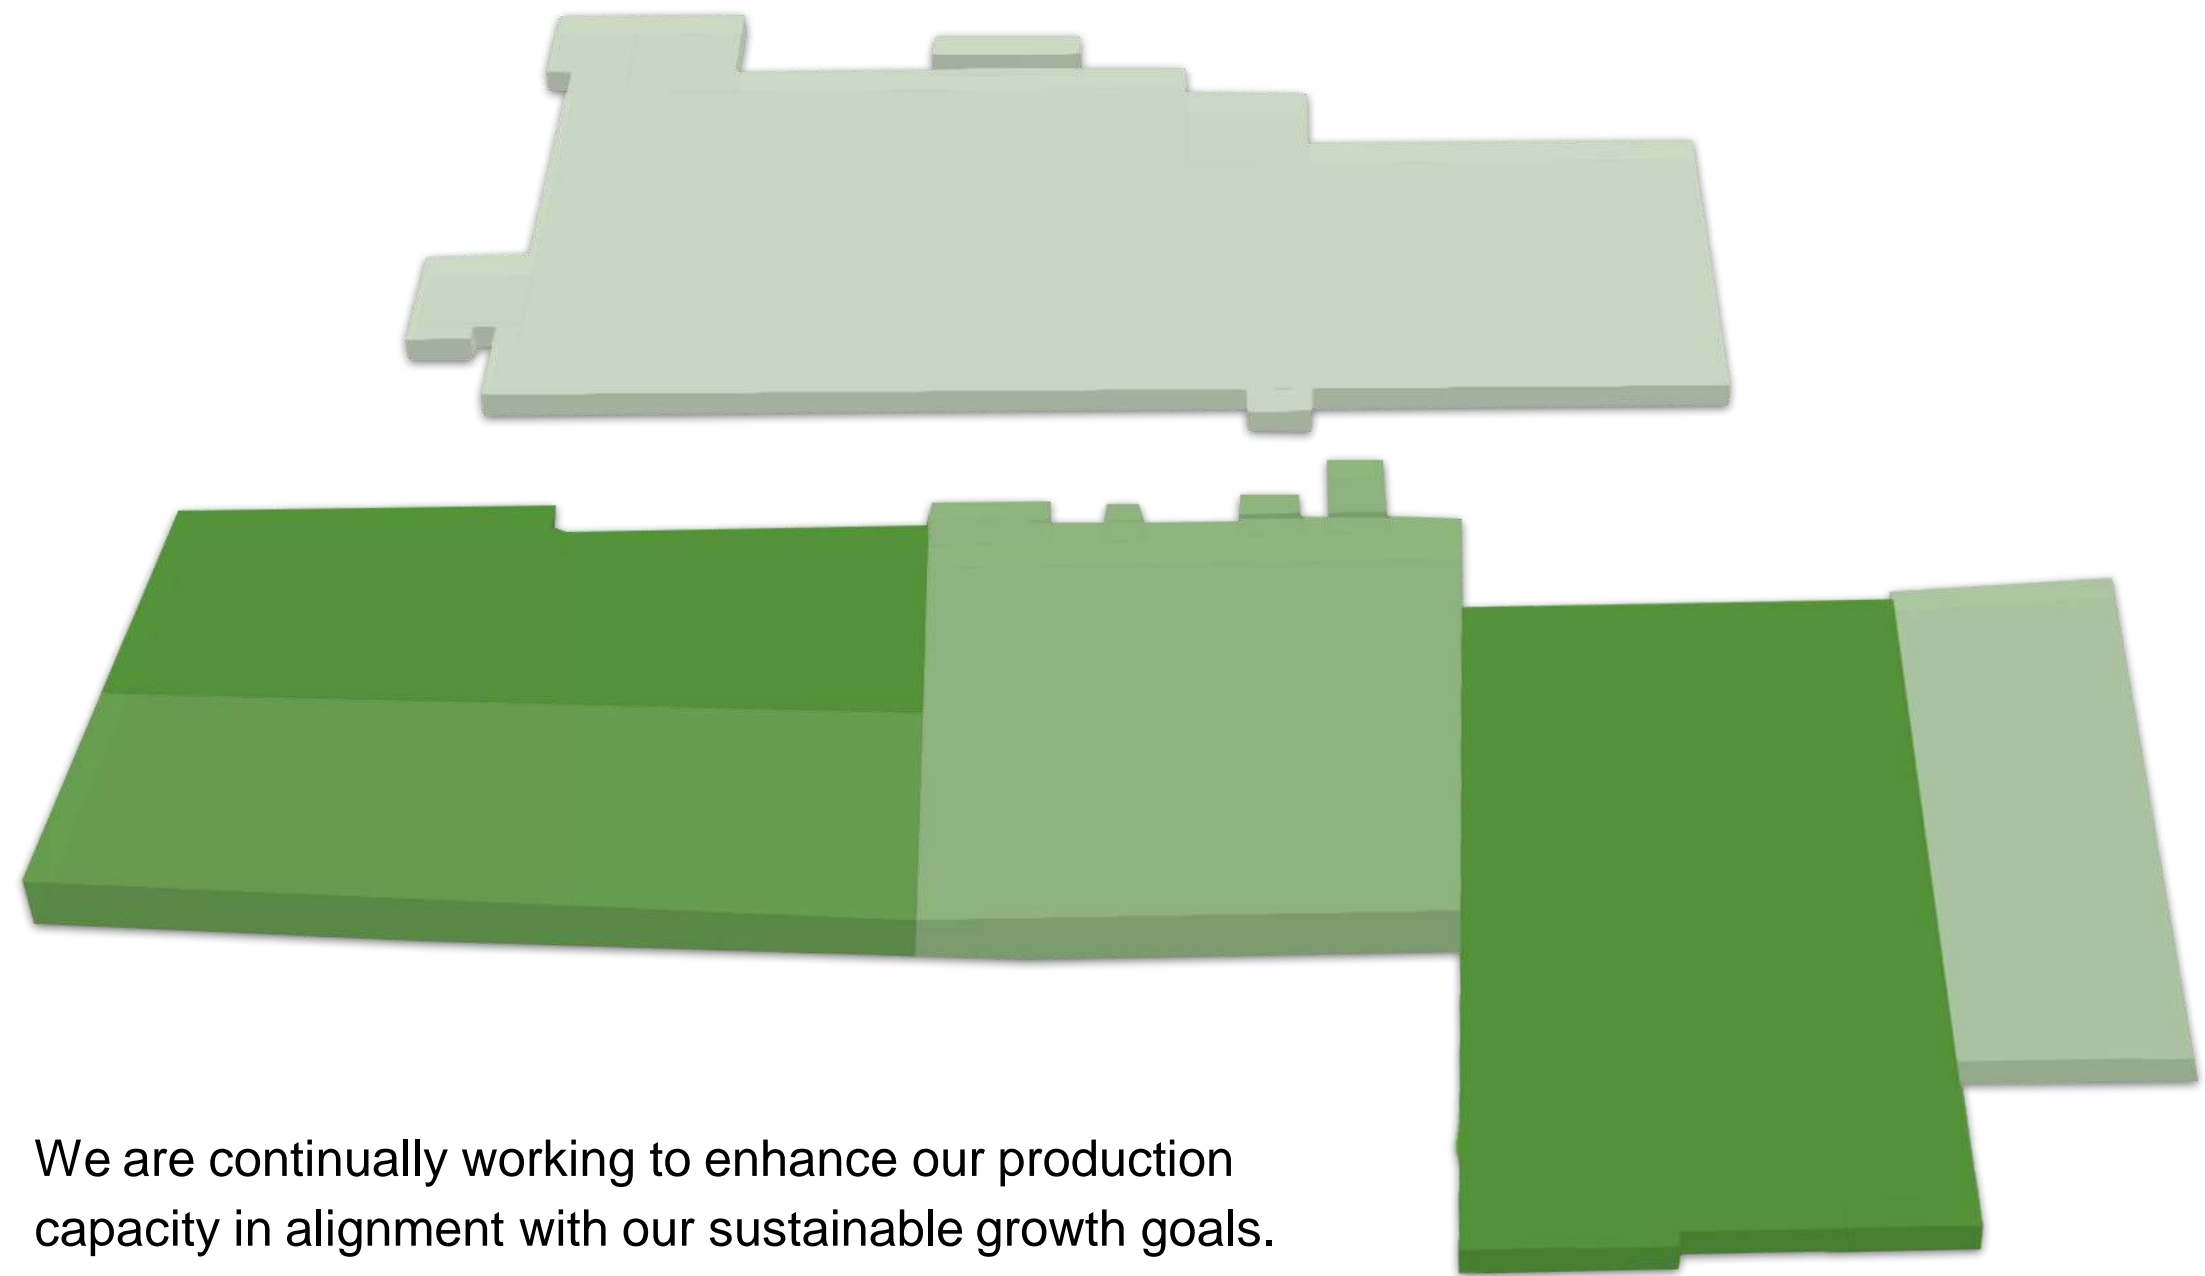

2020 : 13000 m<sup>2</sup>

2021 : 16000 m<sup>2</sup>

2022 : 17000 m<sup>2</sup>

2023 : 18000 m<sup>2</sup>

2024 : 28000 m<sup>2</sup>

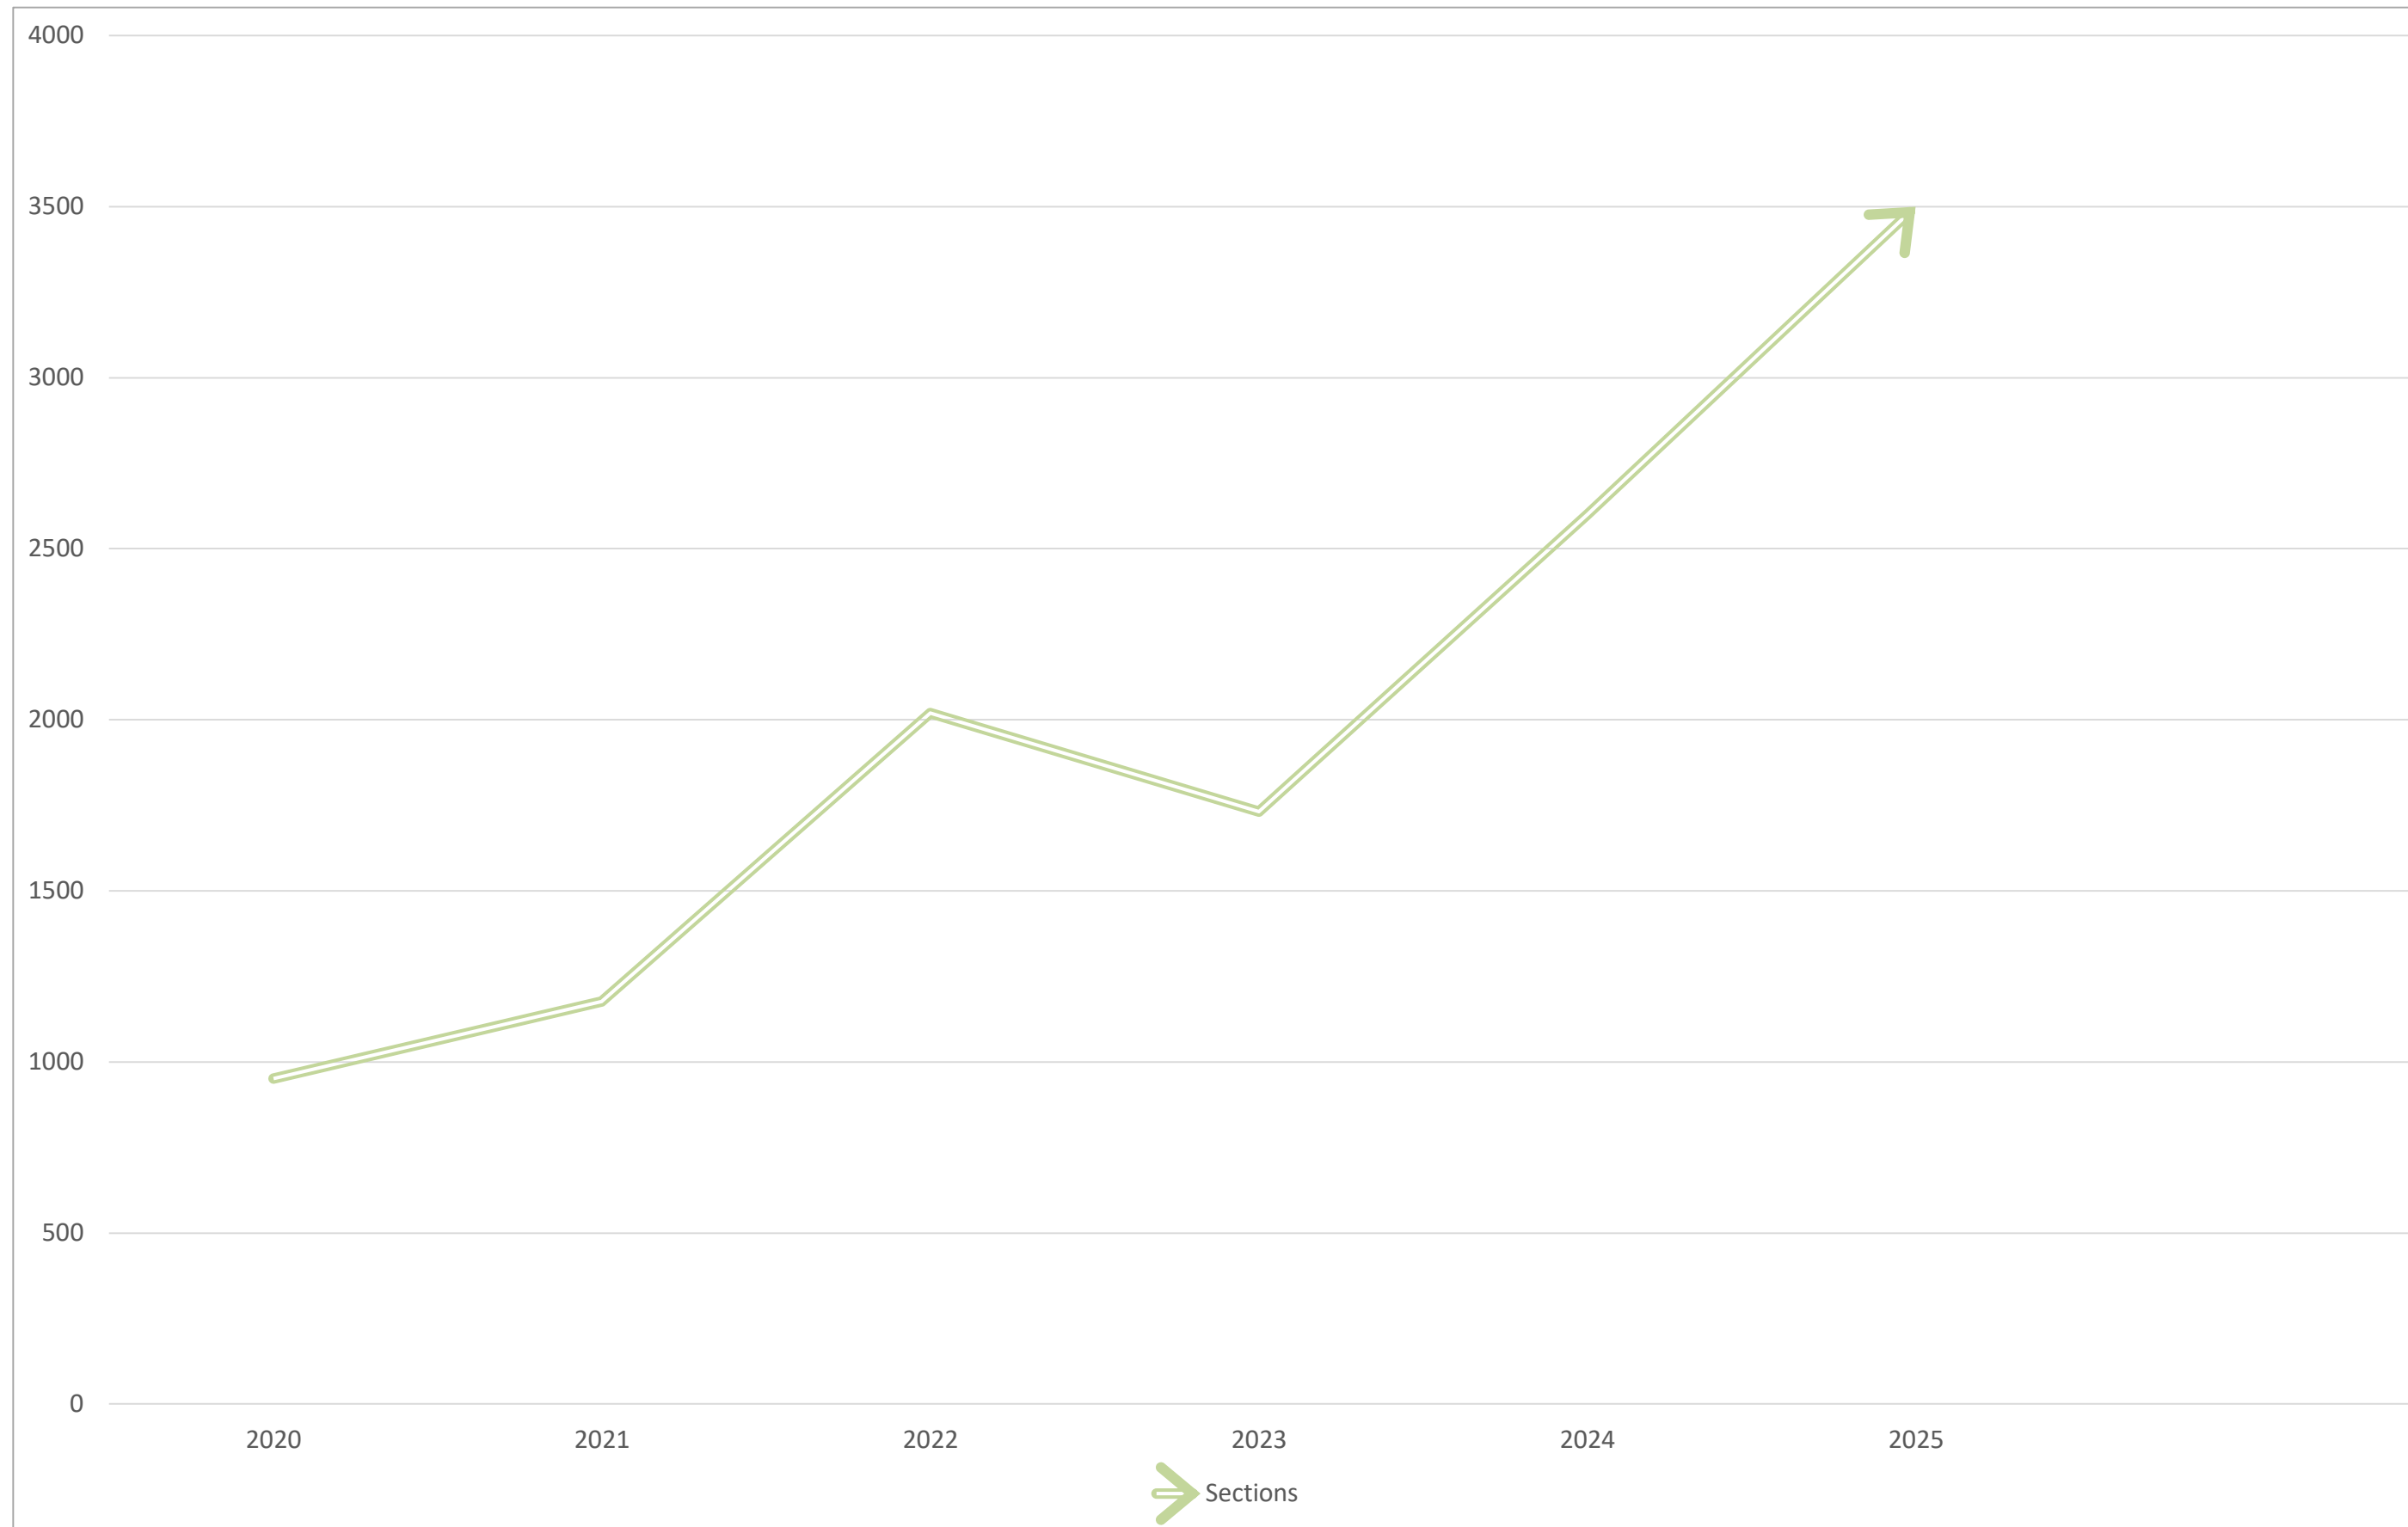

We are continually working to enhance our production capacity in alignment with our sustainable growth goals.

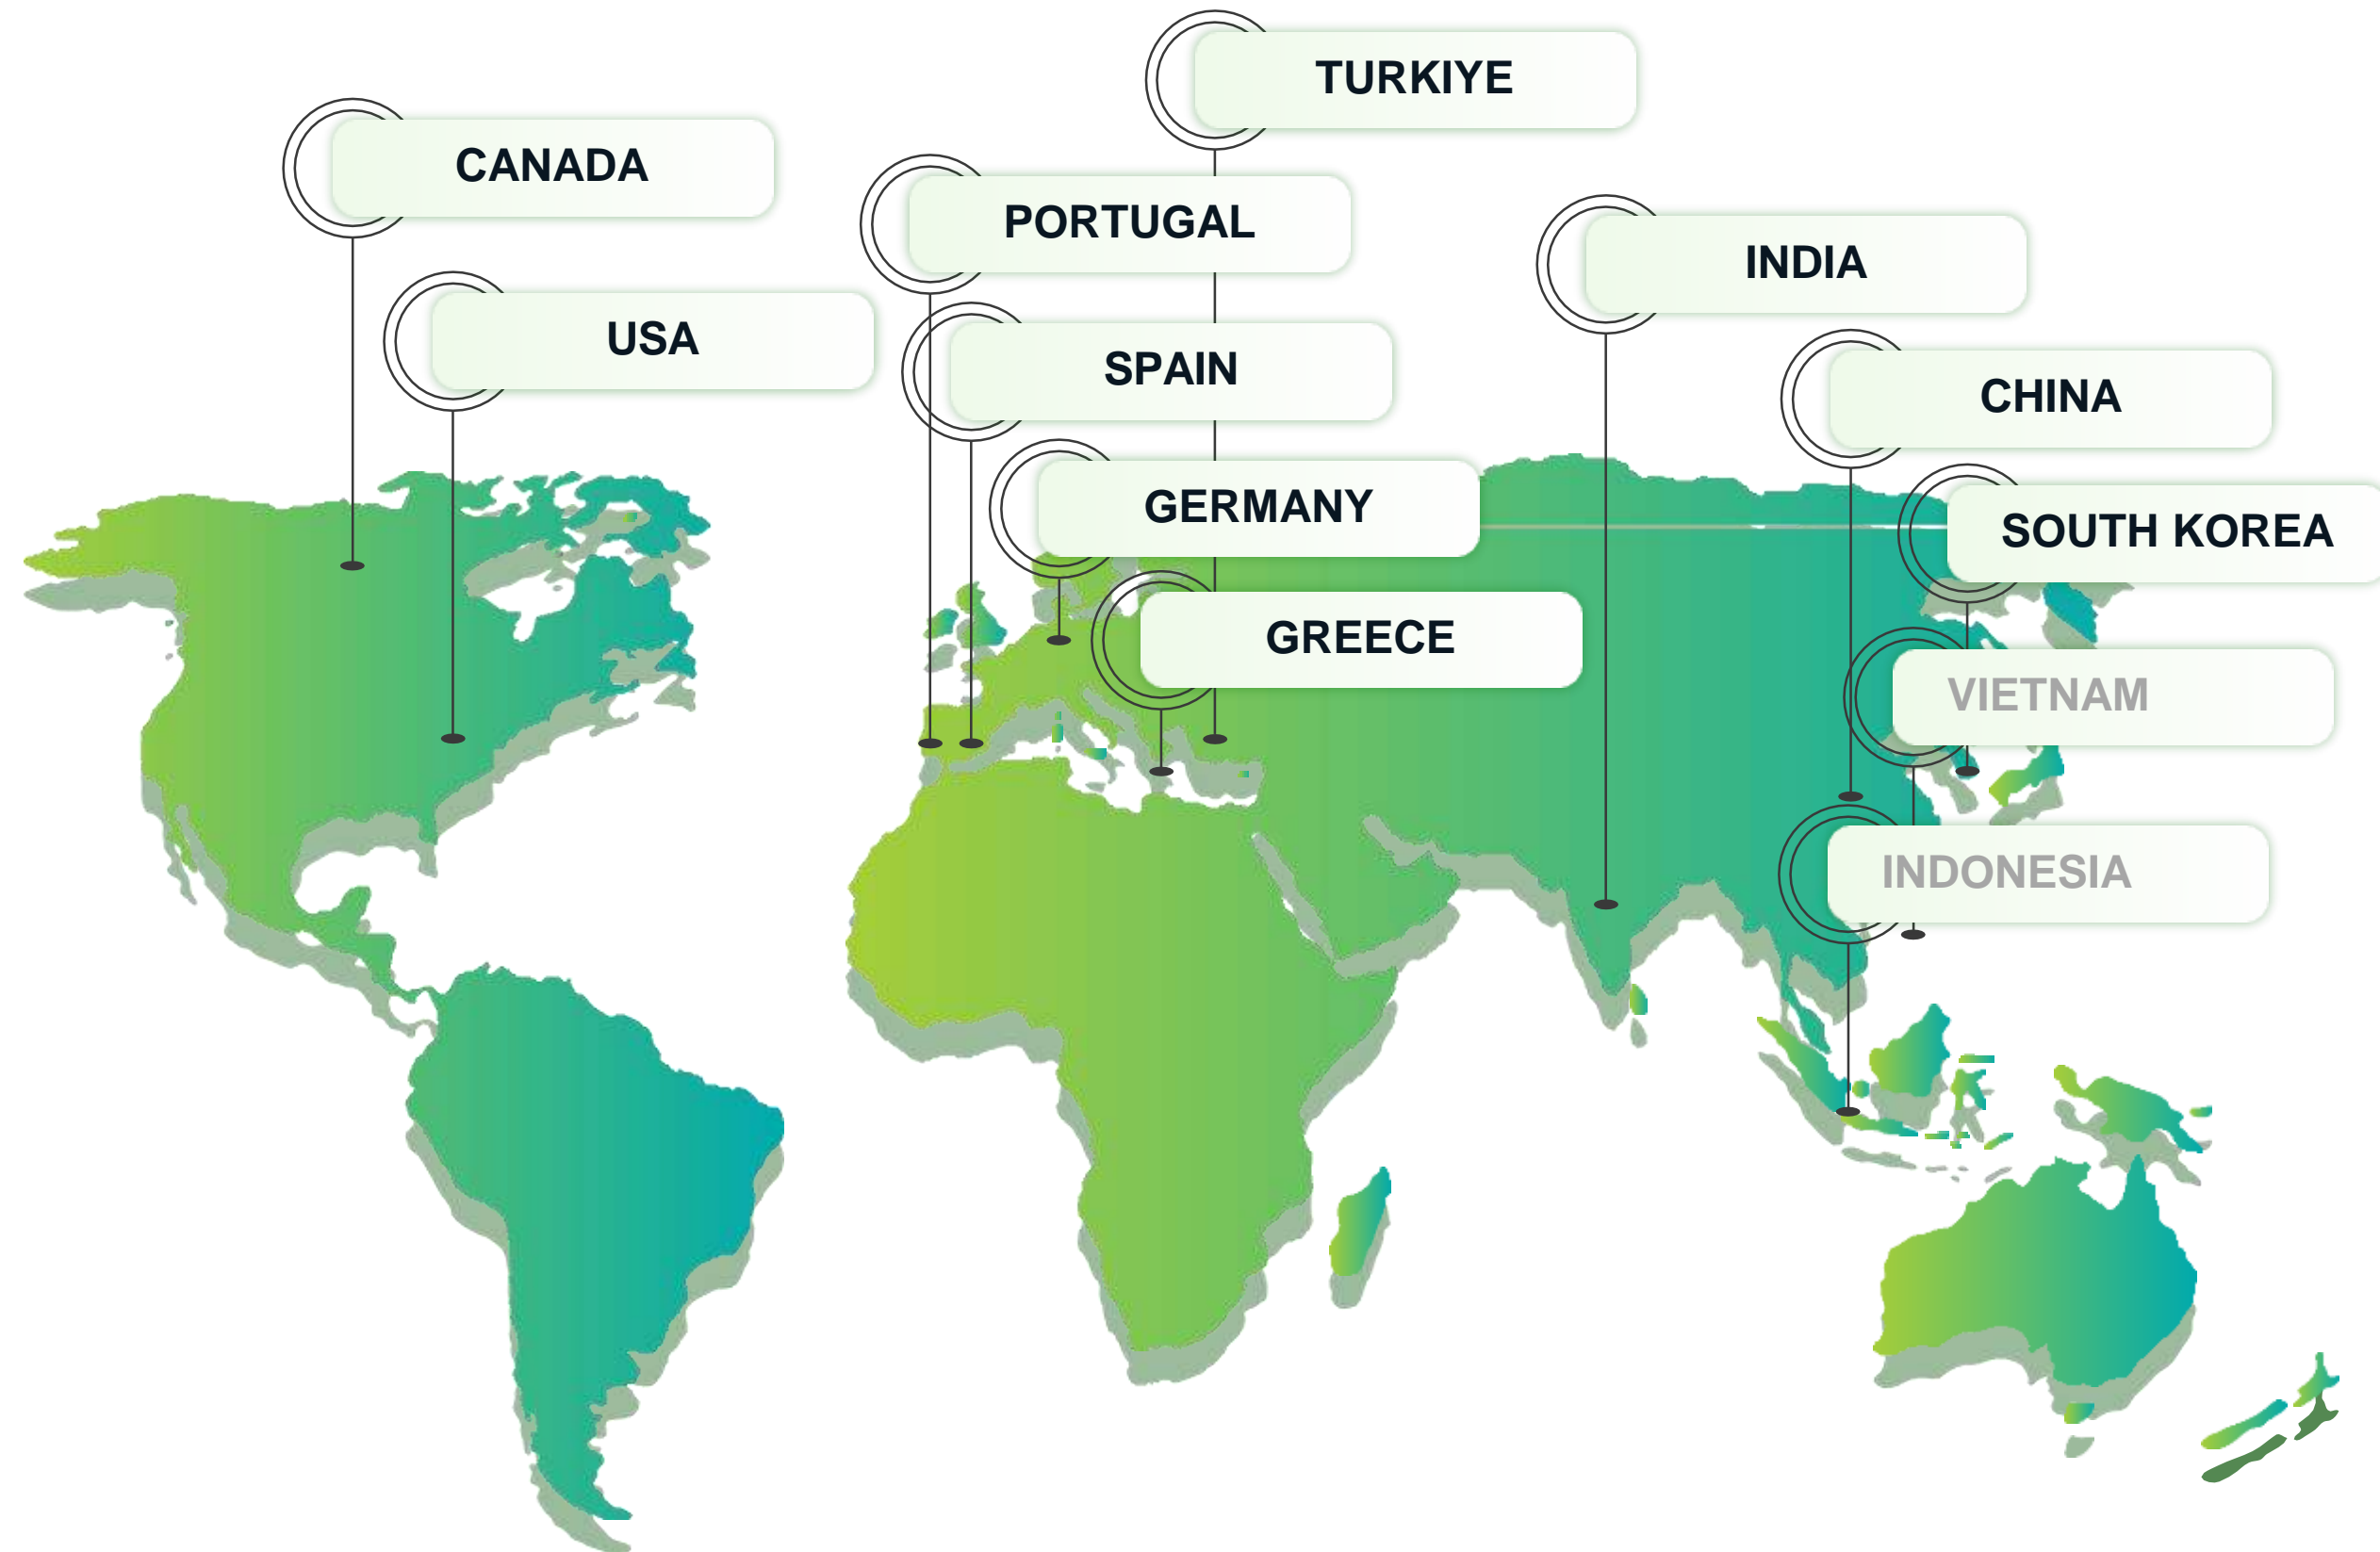

**28.000 m<sup>2</sup> Indoor**  
**41.000 m<sup>2</sup> Total Area**

**We take strong steps in the global market by offering quality products and services to our customers. We deliver our products to many locations around the globe.**

## Vision

**Our vision is to be a leading company that evolves and is preferred while contributing to a sustainable future.**

## Mission

**We act with the awareness of being one team, aiming to achieve a sustainable future by ensuring the satisfaction of all our stakeholders. In light of technological advancements, we strive to add value to the future.**

## Values

**Employee Development  
Sustainability  
Team Unity  
Commitment to Ethical Values  
Open and Effective Communication  
Results Orientation**

**Our production capabilities include products made from structural steel, light steel, stainless steel, profiles and pipes, and aluminum, all in compliance with industrial standards.**

- Laser Cutting (up to 30mm)
- Profile and Tube Laser Cutting
- Robotic Welding
- Bending (thickness up to 20mm, length up to 6m)
- Powder Coating
- Wet Painting
- Welding according to EN 4063:111
- Welding according to EN 4063:135
- Welding according to EN 4063:141

- **Firefighting Training**
- **First Aid Training**
- **Periodic and Autonomous Maintenance**
- **Accident Data Management and Response**
- **Periodic Health Checks**
- **Collaboration with Licensed Recycling Companies**
- **Basic HSSE Training**
- **Periodic Tests and Analyses**
- **Healthcare Consulting**

**ISO 9001:2015**

**ISO 14001:2015**

**ISO 45001:2018**

**EN 1090-3 EXC3**

**EN ISO 3834-2**

## INTERNALS

Years of extensive experience have enabled SAY to provide reliable and cost-effective components for wind towers. Currently, SAY offers comprehensive internal kits that include all necessary procurement parts.

- Platforms
- Railings
- Electrical Equipment
- Catwalks
- Mounting Brackets
- Ventilation Ducts
- Other metal Parts

## TOWER ENTRANCE UNITS

Likewise, SAY also supplies the external components for wind turbines.

- Entrance Cabinets
- Entrance Doors
- External Stairs
- Outside Fences
- Spiral Stairs

## TRANSPORT FRAMES

Another milestone that SAY has added to its product family is transport frames. Our metalworking capabilities include structural steel, enabling us to handle the production of any type and size of transport frame with essential industrial corrosion protection, such as galvanization or painting, according to high corrosivity categories.

- Blade Transport Frames
- Stator Transport Frames
- Generator Transport Frames
- Rotor Transport Frames

## OTHER PRODUCTS

**SAY is currently producing various types of tower parts, including metal components for generators and nacelles. Additionally, SAY manufactures a range of components, such as:**

- Cord Sets
- Flange Bolt Caps
- Edge Cover Profiles
- Cable Guides and Rings
- PU Plates
- Bus Bar Clamping Holders
